

# SOCRRA E-News Update

JULY 2016

## Styrofoam Recycling

**Did you know that Styrofoam takes at least 500 years to decompose? Don't trash it, recycle it at SOCRRA!**

SOCRRA began accepting Styrofoam at our drop off center in December 2014. We are happy to announce that this program has been a success and that we have collected 16.84 tons of Styrofoam as of June 2016.

Every year Dart Container turns foam cups and packaging into hundreds of thousands of picture frames. By giving foam cups and packaging new life they carry advantages for this generation...and the next. [www.dart.biz/recycle](http://www.dart.biz/recycle)

## What happens to the material you place in your bin?

### "The Life of Recycling"

Buy It

Pick It Up

Ship It

Use It

Sort It

Make Something New

Recycle It

Bale It

Buy It Again

**Remember, your community PAYS for trash, but EARNS rebates for recycling.**
